

# 12th Global Conference of ACTUARIES

24<sup>th</sup> October 2009

To,

Dear All,

**Re: The 12th Global Conference of Actuaries (12th GCA), 18-19, February 2010, Mumbai**

It gives me immense pleasure in announcing that the 12th Global Conference of Actuaries (12th GCA) will be held on 18th – 19th, February 2010 in Mumbai at hotel 'Intercontinental The Lalit Mumbai', Sahar Airport Road, Andheri (East), Mumbai 400 059. The Conference will be held jointly with the International Actuarial Association (IAA).

Identifying, quantifying and managing risk have been at the heart of the actuarial profession for decades. Risk appetite of societies and the complexity of risks, have been increasing steadily and this has led to the advent of sophisticated tools to manage such risks. The actuarial profession has continuously kept pace with these developments and the changing society needs. But the events of 2008 have shown the catastrophic effect of the risk that are typically classified as 'tail risks'. The fast spread of information and cross-geographical economic dependencies have demonstrated the impact of aggregation of risks at the global level. Is the actuarial profession equipped to stay ahead of the curve? Are we witnessing a paradigm shift in actuarial management?

Keeping the above in mind we have identified "**Actuarial Management – Paradigm Shift**" as the theme of the 12<sup>th</sup> GCA.

On behalf of the Council of Institute of Actuaries of India, I invite you to be a part of this important event and take this unique opportunity to meet and interact with the actuaries and other professionals. This is the premier event which brings together industry and business leaders to deal with the key issues facing the profession today. We expect around 500 actuaries and other professionals from India and overseas to attend the event.

We very much look forward to having your participation in this most important conference.

The Delegate fee for the conference is as under: -

Delegate Category	Residents of India and other SAARC countries (In Indian Rs.)	Residents of rest of the world (In US Dollars)
