Background:

The world of retirement benefits is changing fast — new regulations, shifting economic conditions, and rapid technological change are reshaping how pensions, employee benefits, and social security are designed and delivered. Staying current with these shifts isn't optional for practitioners in this space; it's essential. The Institute of Actuaries of India is delighted to bring you the 23rd CIRB Seminar, a two-day gathering built around exactly this need — sharp technical content, fresh thinking, and honest conversation on where the profession is headed.
