Excerpts from a participant of off-line class

'Thank you so much for organising such a well-designed program which was executed beautifully. This kind of coaching would really help all of us. Both the faculty members were very good. They helped us understand the critical parts of the question and answering "the question" (not what you think is the question). They helped us wonderfully by guiding us in structuring the answer. The infrastructure of the Institute is excellent and above par with any other classroom experiences. Even the meal quality was superb and we thank all the supporting staff of IAI who made this possible (by working even on a Sunday for us).'
