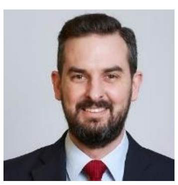
Abstract

The economy, health, climate, society, and our system of governance can no longer be viewed as discrete issues. The correlational impacts are increasingly real - as we have experienced in the course of the Covid-19 crisis. Given that the use of the econometric models underpins actuarial work and that actuaries take a longer-term outlook, it is apparent of the importance of factoring in Environmental, Social, and Governance (ESG) impact to provide better decision-making.

So how are actuaries managing this risk? Is this relevant, or is this just another hype?

Join us and participate in this webinar to learn from those at the forefront of ESG risk management. Uncover ESG actuarial opportunities, best practices, and insights for the future of our work. Make a difference! Be prepared!

Speakers:



Morgan Slebos is the Director of Sustainable Markets at the United Nations-supported Principles for Responsible Investment. He leads the PRI's sustainable financial system and driving meaningful data work areas. Morgan has extensive experience in the financial sector, including previous roles as a policy manager for resource and environment issues at the Institute and Faculty of Actuaries and as an advisor at the Association of British Insurers.

Chris Howells FIA, Head of Global Insurance Clients and Head of Insurance Solutions Asia Pacific at Schroders. He leads the global insurance - asset solutions practice for Multi-Nationals and Asian insurers.He also leads the Schroders Insurance ALM function since 2007.

Chris's career commenced in 1989. He has held actuarial, finance, and management positions at Manulife, Credit Suisse, Sun Life Financial of Canada, and Barclays. He is a Fellow of the Institute of Actuaries and has a BSc Hons. in Mathematics and Astronomy from Cardiff University

Sam Gutterman FSA, FCAS, MAAA, CERA, FCA, HonFIA is a retired consulting actuary whose interests span insurance, social insurance, valuation, accounting, demography, and the environment. Prior to his retirement in 2014, he provided actuarial consulting and audit services to a wide range of life, health, and property & casualty insurance companies, self-insureds, and government agencies. He served as President of the Society of Actuaries (SOA) and chaired numerous committees of the SOA, International Actuarial Association (IAA), American Academy of Actuaries, and Casualty Actuarial Society. He recently served as a vice-chair of the IAA's Resource & Environment Working Group and has authored or co-authored numerous articles and papers on the environment.

Moderates: Annie Tay, *M Applied Finance, FIAA FIA CERA*
Annie is a practitioner and consulting Actuary, with over 20 years' experience working with insurance companies in the UK and Asia Pacific region. She is an alumnus of the Wharton Business School and the Macquarie University (Actuarial Science). She is also currently a Board member for the International Actuarial Association (IAA) – AFIR ERM Section. Her specialization is on Investments, Life and Health insurance, and fintech innovation sectors.
